

Advanced Technical Services Assembly Services

Providing Assembly and Support Solutions to various industries since 1981.

Advanced Technical Services (ATS) ISO-9000 certified Assembly Services are engineered to meet the highest standards of quality and delivery, at competitive price points.

The Advanced Technical Services assembly team is committed to delivering the highest level of customer satisfaction throughout the assembly process and offers a variety of assembly and logistics solutions designed to meet your delivery timelines.

ATS assembly and related support solutions include; a dedicated in-house production staff for faster assembly cycle times, Build to Order and Fulfillment programs to reduce cost and eliminate supply disruptions and RMA Test and Repair Programs to free up customer resources and make certain critical equipment is available for the customer when and where it is needed most.

Certified and Trained Production Staff

Since 1981, ATS' team of highly skilled engineers, technicians and production crews have supported the needs of major OEM's and other customers. Since inception, the ATS technical staff has assembled or repaired over 5,000,000 electronic products for their customers.

Build to Order and Fulfillment Programs

Advanced Technical Services Build to Order and Fulfillment Programs lower customer expense by reducing inventory carrying costs and consolidating warehousing needs without reducing supply chain reliability or performance.

Advanced Technical Services Build to Order and Fulfillment Programs also free up valuable warehouse space by stocking and managing raw components and finished goods at our central US based regional depot location. Advanced Technical Services expedited delivery and shipping solutions ensure that customer products are received when and where they are needed most through immediate, same-day or next day order shipping.

Single Source for RMA Processing and Repair

Advanced Technical Services is your single point of contact for RMA Processing and Test and Repair needs. Advanced Technical Services experienced solutions team allow our customers the freedom to focus on critical initiatives in their business while ATS provides behind the scenes RMA and Test and Repair support.
